INFLATABLES

i2kplay.com

Why did we decide to rebrand from Inflatable 2000 to i2k?

For the past 25 years, our company has offered awesome, innovative interactive games, slides and obstacles courses that have wowed our clients and their clients as well. You may not know this, but Inflatable 2000 also designs and manufactures custom, one-of-a-kind, giant over-sized promotional inflatables as well as product replicas, large inflatable tents, blimps, balloons and even military decoys for the U.S. Government. Our product line has grown over the years and we felt that using the word “inflatable” in our name had pigeonholed us into only inflatable products in the eyes of some of our clients. Another fun fact, that you may not know, is that Inflatable 2000 introduced one of the very first battery-powered bumper cars to the industry as well as introducing one the craziest, coolest full immersion full-axis virtual reality simulators back in the early 90’s.

Over the past 5 years, our business has diversified well beyond “inflatable amusements”; we now provide solutions for FEC’s, trampoline parks, marketing agencies and the fall protection industry, with our patented i2k AirPads. We knew it was time to align our brand with our expanded capabilities and core competencies.

is now

Will there be any changes to our product offerings?

i2k will continue to offer the latest and greatest inflatable products with the same awesome customer service that you have become accustomed to for over two decades. This year we have expanded our product offerings to provide solutions for your business that will help you win over clients and be sure to give you a fantastic ROI! Know that we will continue to invest in innovative amusements products and services to support our clients. It’s too early to say anything now, but i2k will be introducing one of the most ground-breaking innovations that has ever been seen in the inflatable industry. Stay tuned as we work the bugs out to make HUGE leaps in this awesome and fun business...

What is “new” at i2k?

Along with a new logo, a new mobile responsive website (www.i2kplay.com) has been launched that includes new resources, featured product of the month, and our blog. Our tagline “Filled with Imagination” reflects our commitment to provide the industry with the most creative, most fun, coolest, amusing and entertaining inflatables that you will ever find!

Is there a meaning behind the new logo?

We realized of the past several years that many of our friends and clients have been referring to us as i2k or I2000. We felt that i2k was the most relevant, short, to the point, and doesn’t necessarily limit our creativity to only inflatable products.

Due to constant product development, inflatable dimensions and weights are approximate. Artwork color, size, descriptions and schematics that appear on the website, may not reflect the latest changes and are not guaranteed. This applies to new sales only and cannot be applied to existing or open orders. No credits or reimbursements will be given if current pricing is lower than the previous sales promotions.

The tradition of bobbing for apples came from the celebration of Roman festivals. There was a day to honor Pomona, the Roman goddess of fruit and trees. The symbol of Pomona is the apple. Kids have enjoyed Bobbing for Apples for years and now we've come up with the human, inflated version.

2 Participants get harnesses up to a bungee cord and race each other to the center and grab as many apples as possible. The player with the most apples at the end of the game is the winner.
